

July 30th, 2011

Congressman Joe Walsh
50 E Grand Avenue
Fox Lake, IL

Dear Congressman Walsh,

It is with great disappointment that we write this letter to you. Over the course of the past year, we've witnessed your reckless and irresponsible behavior in Congress. You have demeaned President Obama by calling him a liar and you're now threatening to drive our nation off a financial cliff by refusing to raise our nation's debt ceiling. Additionally, we have also learned that the mother of your children is suing you for nonpayment of child support.

As mothers and as people of faith, we know how important responsible fatherhood is to the lives of our children. Therefore it is with great sadness that we ask you to reflect on your past actions and redeem your sense of honor as a father and as a representative.

We ask that you honor the lives of all children, including your own. Do not allow the United States to default on our financial obligations and pay the full child support owed to your family. Failing to do so will only place a greater burden on the lives of children.

Sincerely,
